Samoa Eco Notebooks

When it comes to reducing waste for our planet's long-term health, we believe it is important to be part of the change and make a difference in sustainability issues.

Reusing paper products, giving them a new life and avoiding landfill, it's not a minor strategy but a milestone. We are committing to protect our environment and with this awareness we created the "Samoa" notebook, made from 100% recycled paper.

Samoa Cover

The Samoa recycled cover goes further than many other recycled papers and is made from 100% recycled paper fibres which consists of 60% post-industrial waste (PIW).

This waste comes from cardboard coffee cup production: waste previously destined for landfill, now finds new life.

The remaining 40% comes from post-consumer waste (PCW) from office and stationery waste. The Samoa cover becomes a strong, durable and dyed through paper cover which is perfect for all our branding processes.

Samoa Cover Material Composition

| RECYCLED | RECYCLABLE | VEGAN FRIENDLY | REACH | FSC CERTIFIED |
|---|---|--|---|---|
|  100% RECYCLED PAPER |  RECYCLABLE |  VEGAN |  REACH COMPLIANT |  FSC |
| Made from 40% post consumer waste (PCW) and 60% post industrial waste (PIW). | Recyclable - by all standard recycling processes. | A product is defined vegan when it does not contain any animal or animal ingredients. | Samoa products comply with REACH. No substances currently listed as SVHC's (Substances of Very High Concern) under REACH feature in Samoa notebooks. | The Forest Stewardship Council is an independent, non-governmental organisation established to support & promote environmentally appropriate, socially beneficial, & economically viable management of the world's forests. FSC® helps take care of forests for future generations. |

This durable 120gsm dyed card cover can be personalised with foil, digital print and blind embossing branding techniques.

1. metallic/colour foil
2. digital print*
3. blind embossing

*Half cover option for digital print.

The Samoa cover is made from 100% recycled paper fibres: 60% of which is waste from the manufacture of single use cardboard coffee cups. Waste previously destined for landfill, now finds new life.

Samoa Internal Paper

The internal paper used within Samoa is from 100% recycled fibres made from post-consumer waste (PCW). Emissions that are generated by producing this paper contain the lowest CO₂ emissions of all European paper mills.

The remaining unavoidable CO₂ emissions have been offset towards controlled emission reduction projects within Europe.

Samoa Internal Paper Composition

| RECYCLED | RECYCLABLE | ACCREDITATIONS | GREEN ENERGY | FSC CERTIFIED |
|---|---|---|---|---|
|  100% RECYCLED PAPER |  RECYCLABLE |  |  |  |
| Made from 100% post consumer waste (PCW), recycled and speckled free. | Recyclable - by all standard recycling processes. | ISO 9001 Quality Management and ISO 14001 Environmental Management. | 86% of the energy used at the mill is renewable with the remaining emissions offset towards controlled emission reduction projects. | The Forest Stewardship Council is an independent, non-governmental organisation established to support & promote environmentally appropriate, socially beneficial, & economically viable management of the world's forests. FSC® helps take care of forests for future generations. |

Samoa Product & Page Features

- 100% recycled white 80gsm paper pages
- 100% recycled FSC[®] certified 120gsm card cover
- Full eco-credentials illustrated on the back page
- 100% recyclable (recyclable logo on back cover)
 - REACH compliant
 - Rounded corners

Q61/18 recycled medium ruled

- Recycled paper pages crafted using green energy
 - Medium size 130 x 210 mm
- 160 pages in grey dotted ruled format
 - Index and numbered pages

Materials made with PCW save resources like trees, water, energy & greenhouse gas emissions.
